

Your home deserves the timeless elegance of **Unitex**

MORE AND MORE BUILDING PROJECTS THROUGHOUT AUSTRALIA ARE BEING ENHANCED IN BOTH VALUE AND APPEARANCE BY THE SIMPLE DECISION TO USE UNITEX ACRYLIC COATINGS.

UNITEX ACRYLIC COATINGS

Because they're acrylic, all Unitex Coatings possess powerful bonding qualities, suitable for large or small projects, interior or exterior, new or renovation, Unitex Coatings add good looking, long lasting textures to just about any surface.

TWS

The complete Thermal Wall System, used in the construction industry to insulate, protect and decorate the exterior of a building structure. The system utilises the most technologically advanced methods of insulation and can be used over most substrates.

UNISHAPE MOULDINGS

This system presents an exciting opportunity to create that stylish exterior design theme that's always in demand, with a range of easily applied lightweight decorative mouldings.

To transform the appearance of your home without the nightmare of major renovations, call Unitex SA today on 08 8262 7900.
